Education

- Georgia Institute of Technology - Bachelor of Science in Computer Science Aug 2024 – May 2028

Skills

- Languages: Java, Python, JavaScript, HTML/CSS
- Frameworks & Libraries: Django, Tailwind CSS
- Cloud & DevOps: Fargate, ECS, DynamoDB, EventBridge, Cloudwatch, Cloudformation

Professional Experience

- Amazon Web Services (AWS) – Simple Storage Service (S3) | AFE SDE Intern** May 2025 – Aug 2025
 - Migrated an internal service to run on AWS Fargate, modifying existing AWS CDK (Infrastructure-as-Code) to support containerized workloads.
 - Implemented Fargate packaging and transitioned complex application logic, integrating Amazon EventBridge rules, Docker container overrides, and Guice dependency injections.
 - Worked with Amazon ECS, DynamoDB, EventBridge, CloudWatch, CloudFormation, and other AWS services.
 - Supported S3's 3rd-largest fleet, deprecating legacy services to reduce patching and boost team agility.
- Rockdale County Government Technology Services | Student Intern** Aug 2023 – May 2024
 - Assisted with IT needs of multiple county departments, implemented computer maintenance procedures, set up devices for deployment, and traveled to various county offices to provide creative IT solutions.
- Freelance Web Development** Feb 2024 – Aug 2024
 - Rockdale Magnet Fund Website: Entirely revamped Rockdale Magnet School's fund website. Designed, developed and deployed from scratch in HTML, Tailwind CSS, and JS (RockdaleMagnetFund.org).
 - Rockdale Career Academy Car Show Website: Designed, developed, and deployed a website for Rockdale Career Academy's car show (RcaCarShow.com).

Leadership Experience

- Project Inspire Technology** Jan 2022 – May 2024
 - Founded and led an outreach program to introduce elementary and middle school students to computer fundamentals and coding, fostering curiosity and enthusiasm for technology.
 - Taught Python and hardware concepts at local schools, empowering students with practical tech skills.

Coding Projects

- LockIn – Productivity SaaS:**
 - Developing a desktop app to block distractions with an “unblockable” architecture, preventing even developer overrides for maximum focus.
 - Deployed early sign-up landing page and attracted beta interest.
- Portfolio Website:** *(Source Code on GitHub)*
 - Designed, developed, and deployed, my personal website (www.NoahBuchanan.com).
- Daily Picture Aligner:** *(Source Code on GitHub)*
 - Created a Python script to automatically align thousands of selfies for consistent framing in image datasets.
 - Open-sourced on GitHub; received community engagement (stars) and user support via donations.

Awards and Honors

- Amazon Future Engineer Scholar. 2024
- Georgia Institute of Technology Stamps Scholar Semifinalist. 2024
- OpenCV International AI Competition: Popular Vote Finalist | Top 20 Projects Award. *(Source Code on GitHub)* 2023
- Recipient, National Student Innovative Award; selected to attend NCSSS Research Conference in Illinois. 2023

Interests

- Long-Distance Running, Guitar/Music Theory, Video Editing, Rock Climbing, Barbering, and Learning Korean.
